PROPERTY DESCRIPTION

Transitioning from hospital care can be overwhelming, especially when you're waiting for a SIL placement, organising home modifications, or simply needing somewhere safe, warm, and comfortable to stay in the meantime. We understand how important it is to have timely options, which is why we offer rapid response availability and emergency support for people with NDIS plans.

Step into a newly built, premium residence designed to provide both comfort and independence—a place you can genuinely feel proud to call home. Each spacious room feels like its own private apartment, complete with a kitchenette and bathroom, giving residents the freedom to enjoy their own space while still having support close by whenever it's needed.

To ensure inclusivity and meet a wide range of needs, the residence also features two purpose-built rooms designed specifically for people requiring bariatric supports, offering additional space, specialised equipment compatibility, and enhanced comfort.

The home includes a dedicated retreat area: a warm, inviting space with comfortable couches and a small library, perfect for reading, relaxing, or unwinding throughout the day. For social connection, there are shared tables and welcoming communal areas ideal for family visits, friendly catch-ups, or personal gatherings.

With a clinically informed support team and an on-site manager, the residence maintains a consistent, high standard of care and oversight, offering peace of mind for both residents and their families.

This environment strikes a thoughtful balance between privacy and connection, creating a modern, supportive setting where individuals can feel at home, maintain independence, and enjoy meaningful moments while receiving the right level of care during their transition.
